

High Speed Digital Ham Network for Oregon & SW Washington

Kickoff Meeting:

Saturday June 21st ; 9am to Noon

At the LDS North Dakota Meetinghouse

11065 SW North Dakota Street, Tigard OR 97223

[Take the Greenburg Exit off of Hwy 217]

This is a Planning Meeting open to all Amateur Radio Operators. All of you are invited to come and help us plan a Region-wide High Speed Ham Radio Digital Network. We need your ideas and input.

Some ideas are:

- A Portland Area HamWAN similar to the Puget Sound HamWAN
- Using Mesh Nodes
- Other Wireless Router Based Schemes
- A mixture of all of the above

Show & Tell:

Bring your Standard MESH Nodes; 3.6GHZ Nodes ; and 5.8GHz Nodes.

Bring your portable Packet Radio Kits.

Also, bring anything digital that you think might be useful.

Come join the discussion and Learn from each other. Your Input is needed.

Refreshments will be provided.

Visit www.hamwan.org & www.nw-mesh.wikidot.com ;www.broadband-hamnet.org ; and the sites of the various European Country High Speed Networks. Get some ideas. I lean towards 5.8GHZ Backbone & Mesh Last Mile.

See you there,

Ken Tolliver, K7ICY

President of the Cascade Amateur Radio Society (CARS)
